DETAILED ACTION

Specification

The disclosure is objected to because of the following informalities: on page 15, line 15 and on page 21, line 3, it is suggested that “choice” be changed to –choose-; on page 16, line 11, it appears that “dishing” should be –fishing-; on line 16, it is suggested that “beginner” be changed to –beginners-; on page 24, line 9, it appears that “dishing” should be –fishing-; on line 13, it is suggested that “the results” be changed to –a result-. Appropriate correction is required.

The Summary of the Invention on pages 3 through 8 appear to be improper. Please note the proper format below.

Brief Summary of the Invention: See MPEP § 608.01(d). A **brief** summary or general statement of the invention as set forth in 37 CFR 1.73. The summary is separate and distinct from the abstract and is directed toward the invention rather than the disclosure as a whole. The summary may point out the advantages of the invention or how it solves problems previously existent in the prior art (and preferably indicated in the Background of the Invention). In chemical cases it should point out in general terms the utility of the invention. If possible, the nature and gist of the invention or the inventive concept should be set forth. Objects of the invention should be treated briefly and only to the extent that they contribute to an understanding of the invention.

Claim Objections

Claims 5, 9 and 17 are objected to because of the following informalities: with respect to claim 5, it is suggested that –one of- be inserted after “by” and “or” be changed to –and-, line 3; with respect to claim 9, it is suggested that –one of- be inserted after “through” and “or” be

Art Unit: 3654

changed to –and–, line 2; with respect to claim 17, it is suggested that “one of” be inserted after “through”, line 2 and “or” be changed to –and–, line 3. Appropriate correction is required.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 4 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The recitation “does not processed” is unclear making the claim vague and indefinite.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-20 are rejected under 35 U.S.C. 102(b) as being anticipated by Kaneko (U.S. Patent no. 5,236,147). Kaneko discloses a fishing reel body comprising a reel body; a spool; a revolutions counter detector; a line measurement device based on the number of spool revolutions; an informing device; and a controller.
